

Jehosue B. Biscarra, Full-Stack Web Developer

La Union, Philippines, (63+) 9923314755, jehosuebiscarra@gmail.com, github.com/Jehooooo

PRO FILE	I'm a motivated Web Developer with experience leading academic programming projects and collaborating with clients to build web-based solutions. I served as a team leader for class-based development projects, coordinating up to 13 classmates to deliver functional applications. Skilled in HTML, CSS, JavaScript, Java, Python, MongoDB, and Git.	
EMPL OYMENT HISTORY	Video Editor, Self Employed/Freelance	
Jul 2022 — Mar 2023	Produced 20+ short-form and promotional videos for 10+ clients, managing projects end-to-end: editing, color grading, motion graphics, and sound design using Adobe Premiere Pro and After Effects. Collaborated with clients to define creative briefs and deliver polished drafts within 48-72 hours; iterated based on feedback to achieve a high client approval rate. Optimized videos for social platforms (YouTube, Facebook, Instagram) by improving pacing, captions, and thumbnails, boosting view-through and engagement metrics. Organized assets, maintained version control, and encoded final deliverables to meet platform specifications and branding guidelines.	
EDUC ATION	General Academic Strand (GAS), Abra High School	Bangued, Abra
Apr 2017 — Jul 2024	Graduated with high honor. Received Best Research Paper and Best Work Immersion awards from the Department of Information and Communication Technology (DICT), Abra Philippines. Completed DICT work immersion involving project-based ICT assignments, research, and practical digital skills application.	
Aug 2024 — Present	Bachelor of Science in Computer Science, Don Mariano Marcos Memorial State University - South La Union Campus	Agoo, La Union
	Throughout my academic journey, I have consistently taken on leadership roles in software development projects. During my first year, I served as the project leader for two teams, managing the development of programming projects for nearly half of our section. In my second year, I collaborated directly with clients to develop software solutions while leading a team of 13 members. In my third year, I led the development of three software projects in collaboration with our municipality, delivering solutions that supported both community initiatives and academic requirements.	
TECH SKILLS	Languages: HTML, CSS, Python, Java, Typesript Frameworks: Flask, Django, React, Tailwind CSS Databases: MySQL, MongoDB Tools & Platforms: Git, Github, Vercel, Render, Aiven, Photosho, Premiere Pro LLM's: Google Gemini, Claude Anthropic, REST APIs, n8n
